The amount of hours I spent on this game when I was younger is beyond my imagination. This game was so cutting edge with gore, ragdolls, vehicles, big servers and mods. It was just u2665u2665u2665u2665ing fantastic. It's so depressing to see that the people that birthed this now run a piece of gooch like Fortnite. It's sad to see that as we all evolve, games do too. We want something to take us back to a game this fun but, it's already been done, there's been 100 remakes and clones and they're allu2665u2665u2665u2665u2665u2665because this was the defining moment of when games became like this.. When Epic Games was Epic Games.. I played the full game for 1.4 hours on my $1000 PC, but I played the demo for over 200 hours on my family computer 14 years ago that could barely browse the web.. this is where dota 2 announcer birth. "Sexy announcer". Worth the price-tag alone.. How to make this game 10 times better: Go to Settings/Audio. Set both the Status and Reward Announcers

to UT2003. Enjoy the ham.. Yeah I played the u2665u2665u2665u2665 out of this when it came out and it was awesome. Playing it a few times years later and it's still one of the best arena shooters ever.. Can't play online with friends. The NPC insults are too harsh and makes me cry, therefore, I'm in.. One of my favorite FPS it has so much content so many maps, mods, guns and the buttery smooth gameplay people say Epics greatest game is Fortnite but its not the Unreal Tournament Series is there best collection of games.
